

## 5TH ESADE-PwC FOUNDATION FORUM ON SOCIAL LEADERSHIP

The 5<sup>th</sup> forum of the ESADE-PwC Social Leadership Programme was held on 11 November at ESADE Madrid. The session focused on the theme of “**Results-based leadership to progress in social strategy and impact and in organisational development**”, as during the 2010-11 course the programme will be centred on strategy and results measurement in NGOs.

The meeting started with a presentation by Javier Garilleti of the new **Nestor Project** which is part of the ESADE-PwC programme and is an initiative for cooperation between the PwC Foundation and ESADE Social Innovation Institute, whereby PwC partners will give coaching courses for administrators of NGOs and Foundations that take part in the programme.

The next forum within the programme, to be held at the end of March in Barcelona, will continue with this theme and will include case studies by the participating entities concerning their own initiatives in results measurement, as well as providing more information on measurement systems and tools for NGOs.
